
**The Squiggle Squad Alphabet Display Cards were designed to show kids what letters look like *and* how each letter is formed. Displayed at their level, little learners can trace the letters with their finger as the say the letter names or sounds. Providing the visual, oral *and* kinesthetic connection to letters increases a child's understanding of language.**

**MAKE SURE THEY ARE REALLY GETTING IT!**

Consider introducing lowercase letters in isolation to eliminate any confusion young students may experience by seeing capital and lowercase letters displayed side by side. Display the lowercase alphabet first as they learn to form letters with the Squiggle Squad. Add the capital letters as you introduce these "special" letters used for "special" purposes.

SUGGESTED: Print, cut in half, and laminate, if possible. Use these cards in conjunction with the Squiggle Squad booklets to improve literacy skills.
